YEARS OF
INDUSTRY EXPERIENCE

Better in Every Direction. Focused on You.

About Jezben

13+

YEARS OF EXPERIENCE

JEZBEN PEST CONTROL L.L.C is a Dubai-based pest management company serving residential, commercial, industrial and managed properties across the UAE. With more than 13 years of industry experience, we provide reliable pest management solutions tailored to the specific requirements of every property.

Our approach combines practical field expertise with Integrated Pest Management (IPM), including detailed inspections, targeted treatments, preventive measures, regular monitoring and clear service documentation. Our trained professionals follow Dubai Municipality requirements and use approved products and application methods to deliver safe, effective and responsible services.

From general pest and rodent control to termite, mosquito and specialised pest management services, we focus on long-term prevention rather than temporary solutions. Through responsive support, consistent follow-ups and a strong commitment to customer satisfaction, we help protect people, property, food safety and business reputation while building lasting relationships with our clients.

Our team supports routine preventive programmes, one-time treatments and specialist projects, with clear reporting and follow-up for every site.

OUR MISSION

Deliver effective pest management that protects people, property and the surrounding environment.

OUR VISION

Become the most trusted pest management partner in the region through consistent service and client care.

OUR COMMITMENT

Maintain quality, customer satisfaction and continuous improvement across every stage of service.

MANAGEMENT**

**SERVICE COVERAGE
ACROSS THE UAE**

Pest management services

Comprehensive solutions delivered through site-specific inspection, treatment and follow-up.

01 GENERAL PEST CONTROL

Cockroaches, ants, spiders, flying insects and other common pests.

02 RODENT MANAGEMENT

Inspection, monitoring, trapping, bait stations and proofing recommendations.

03 TERMITE SOLUTIONS

Pre-construction and post-construction treatments, including localised control.

04 BED BUG TREATMENT

Detailed inspection, targeted treatment and follow-up based on site conditions.

05 MOSQUITO & OUTDOOR CONTROL

ULV or thermal fogging and outdoor pest management where required.

06 SPECIALIZED SERVICES

Lizard, snake, bird, honey bee, drain fly and disinfection services.

Every programme is planned around the pest risk, property type, occupant profile and operational requirements of the site.

Integrated Pest Management

A structured approach that combines inspection, prevention, targeted treatment, monitoring and documentation.

01 SURVEY

Inspect risk areas, access points, sanitation conditions, pest signs and harbourage.

02 IDENTIFY

Confirm the pest species, activity pattern and infestation level before selecting treatment.

03 PLAN

Choose approved products and non-chemical controls suited to the site and its sensitivity.

04 TREAT

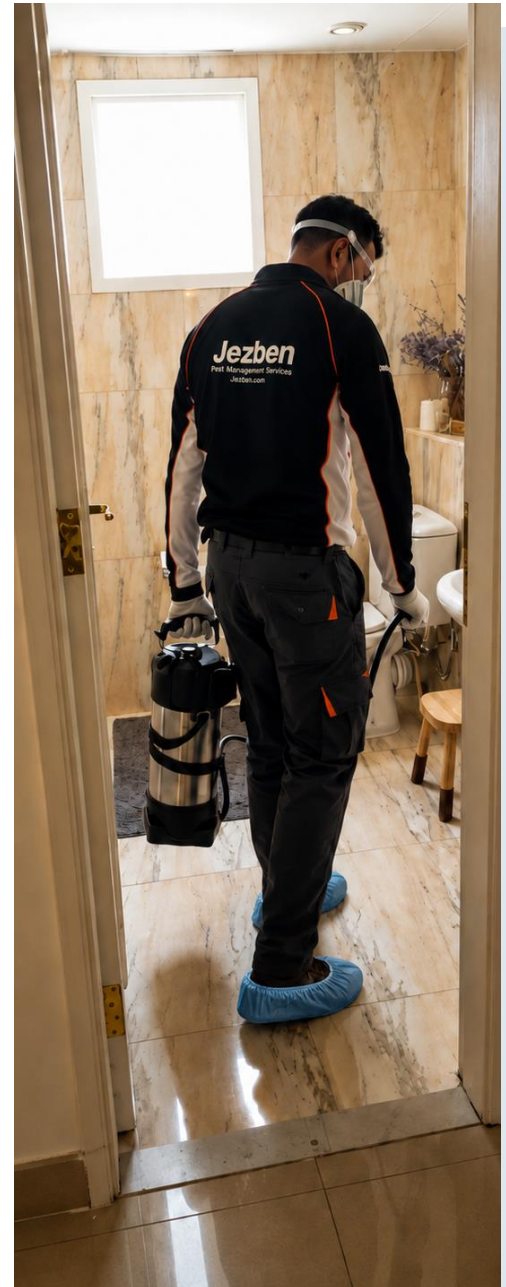

Apply focused controls to affected areas, entry points and contributing conditions.

05 MONITOR

Review traps, monitors and activity trends during scheduled or follow-up visits.

06 REPORT

Record treatments, observations, photographs and practical recommendations.

Focused on long-term control

Prevention, site improvement and monitoring help reduce repeat activity and unnecessary pesticide use.

Programmes for every environment

Service plans designed around hygiene risk, property use, occupant needs and operating schedules.

REAL ESTATE & PROPERTY MANAGEMENT

Residential buildings, common areas, apartments, villa portfolios and managed properties.

FOOD & HOSPITALITY

Restaurants, kitchens, pantries, bakeries, hotels, food outlets and storage areas.

SCHOOLS & EDUCATION

Classrooms, cafeterias, kitchens, staff areas, drainage zones and public spaces.

INDUSTRIAL & WAREHOUSING

Factories, warehouses, loading areas, stores, offices and staff facilities.

HEALTHCARE & INSTITUTIONAL

Sensitive environments requiring planned access, careful treatment and clear documentation.

VILLAS & RESIDENTIAL COMMUNITIES

Preventive programmes for villas, shared amenities, external areas and service zones.

OFFICES, RETAIL & COMMERCIAL

Corporate offices, shops, showrooms, commercial buildings and back-of-house areas.

PREVENTIVE AMC, ONE-TIME TREATMENT AND SPECIALIST PROJECTS

Why clients choose Jezben

A professional service model built around technical competence, safety planning and clear communication.

01 EXPERIENCED PROFESSIONALS

More than 13 years of industry experience supported by trained and certified technicians.

02 APPROVED PRODUCTS & SAFETY PLANNING

Treatments use approved products and methods selected for the site, occupants and operational conditions.

03 CUSTOMISED PROGRAMMES

Scope, frequency and control measures are planned around the property and its pest risk.

04 PROFESSIONAL EQUIPMENT

Suitable equipment and application methods support efficient, consistent and controlled treatment.

05 DOCUMENTED SERVICE & SUPPORT

Service reports, photographs, recommendations and responsive follow-up keep clients informed.

OUR COMMITMENT

Reliable pest management delivered with integrity, professionalism and respect for every client environment.

Certifications & approvals

Commitment to internationally recognised quality, environmental, food-safety and occupational health standards.

ISO

9001:2015

QUALITY MANAGEMENT

Supports consistent service quality, controlled processes and continual improvement.

ISO

14001:2015

ENVIRONMENTAL MANAGEMENT

Supports responsible practices designed to reduce environmental impact.

ISO

22000:2018

FOOD SAFETY MANAGEMENT

Supports high food-safety standards in food-handling and storage environments.

ISO

45001:2018

OCCUPATIONAL HEALTH & SAFETY

Supports safer work practices for employees, clients and site users.

APPROVALS & PROFESSIONAL PRACTICE

DUBAI MUNICIPALITY APPROVED

Services are delivered in line with applicable Dubai Municipality requirements and approved practices.

INTEGRATED PEST MANAGEMENT

Inspection, monitoring, prevention, targeted treatment and reporting guide the service programme.

ENVIRONMENTAL RESPONSIBILITY

Methods consider the site, occupants and surrounding environment, with focused application where suitable.
